A Simple Management System for a Personal Library

v0.4.0.24

Péter Felecan

November 6, 2026

In this project I worked, with Claude (Anthropic) LLM assistance, on a simple management system for a personal library.

Here are the resources of the project:

- Concept: the concept of the system
- Design: the design of the system
- Manual: the manual for users and administrators
- Sources: the full distribution archive of the last public version.
